**The general goal / objective is to promote science and research in order to contribute to the formation of high social capital, to protect culture, as well as to promote civic spirit.**

**Concrete objectives:**

**Objective 1.** *Formation of an interdisciplinary professional research network in the context of sustainable development*

- Compilation of research teams in order to enhance human resources in the area of scientific research and innovation in the context of the need for quality education;
- Fostering scientific collaboration between specialists from Romania and abroad in order to contribute to building a climate of peace, justice and effective institutions;
- Compilation of an interdisciplinary work core to ensure collaboration between research teams in various fields of activity.

**Objective 2.** *Initiation, development and implementation of scientific research and / or innovation projects*

- Identifying funding lines / directions that make possible scientific research and / or innovation on topics belonging to various fields;
- Elaboration of projects to support the general goal / objective;
- Supporting other projects initiated by the Association's partners.

**Objective 3.** *Creation of tools / means through which the results of research or projects will be disseminated*

- Organizing symposia, round tables, panels, conferences on topics from various fields of research with national and / or international participation;
- Facilitating meetings between members of the research teams, including through the use of information technology in the knowledge society;
- Creation of a journal through which to disseminate research results and project activities;
- Supporting partners' efforts to strengthen the research network.

**Objective 4.** *Development of tools / means to make visible the activities of the Association*

- To create a website of the Association;
- To publish, print and distribute publications.

**Objective 5.** *Carrying out activities to support the initiatives of the members of the Association*

- To conclude partnerships with other associations, research centers, societies, academic institutions;
- To initiate the collaboration with the academic environment and the educational environment;
- To encourage actions aimed at supporting the professional development of the members of the Association;
- To conduct courses designed to contribute to the professional support of professional communities;
- To support actions that bring added value in the local communities and in the fields in which the members of the Association's partners work.
